

Aspiration Prayers

Rinpoche has always emphasized the practice of aspiration prayers. As he says in his introduction to the *King of Noble Aspirations, the Prayer for Excellent Conduct*:

"To rely on aspirations made by buddhas and bodhisattvas carry an immense blessing; an incredible power fully equivalent to the far-reaching goal a mahayana practitioner sets for him- or herself: To reach the level of buddhahood transcending all conceptuality in order to benefit sentient beings, who are as limitless in number as space is limitless in its extent."
